January 7, 2004, Tulsa, Oklahoma - After more than a year of review by six national and international editors resulting in the most accurate German-to-English translation to date, Steelmark LLC announced today the Second Edition of "And Still They Fly!" has been released to layout, paving the way for this well-received book to have a print debut in approximately nine weeks.

Steelmark also announced today the addition of a new chapter containing recently released prophetic information entitled The Enoch Prophecies. These prophetic announcements, which were given to the contactee Billy Meier during his 215th contact on February 28, 1987, warn of a possible World War III scenario and specifically name the destruction of the WTC and the USA in many instances. This long-awaited English translation of The Enoch Prophecies will further complete the most comprehensive and well-documented book ever released on the Billy Meier Contacts.
